

CREDIT ANALYSIS REPORT

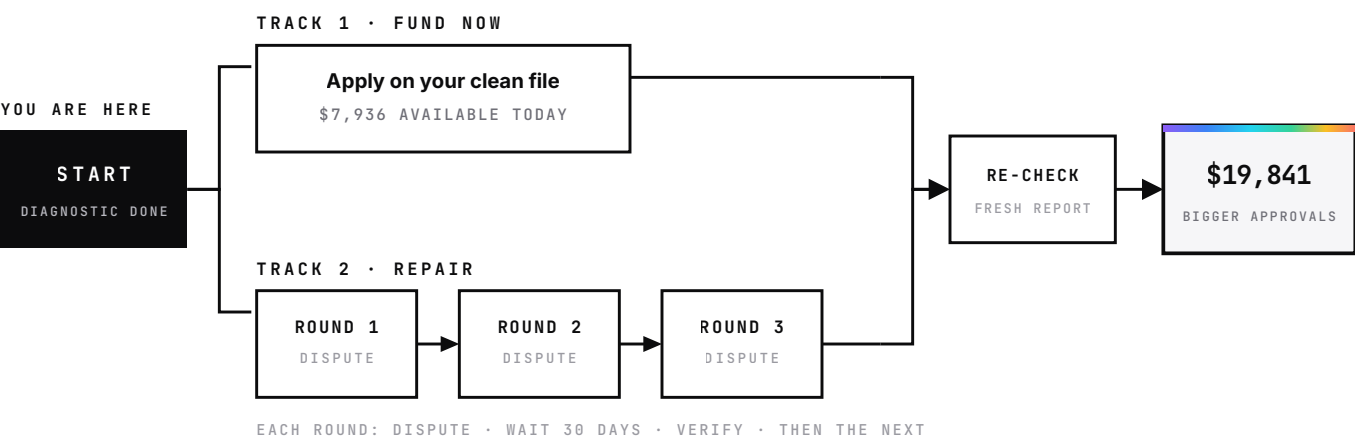

Financial Profile Assessment

APPLICANT	DATE	OUTCOME	MEDIAN SCORE
Jordan Sample	July 25, 2026	FUNDING_PLUS_REPAIR	636

Jordan, let me be straight with you. You have real credit activity. You have a mortgage. You have installment loans. You have a history that shows you can manage debt. But right now, your file has some landmines that are costing you thousands in funding potential. The good news? We can fix most of this. You qualify for funding today - and with targeted repairs, that number jumps significantly. This report breaks down exactly what is working, what is hurting you, and what to do about it. Nobody has ever broken your credit down like this. Let's get into it.

Your plan runs on two tracks at the same time.

You do not wait for repair to finish before you get money. Both tracks run at the same time. Each dispute round makes the next application round stronger.

your outcome: funding_plus_repair • both tracks are already in this plan

01 / BUREAUS

Bureau Health Summary

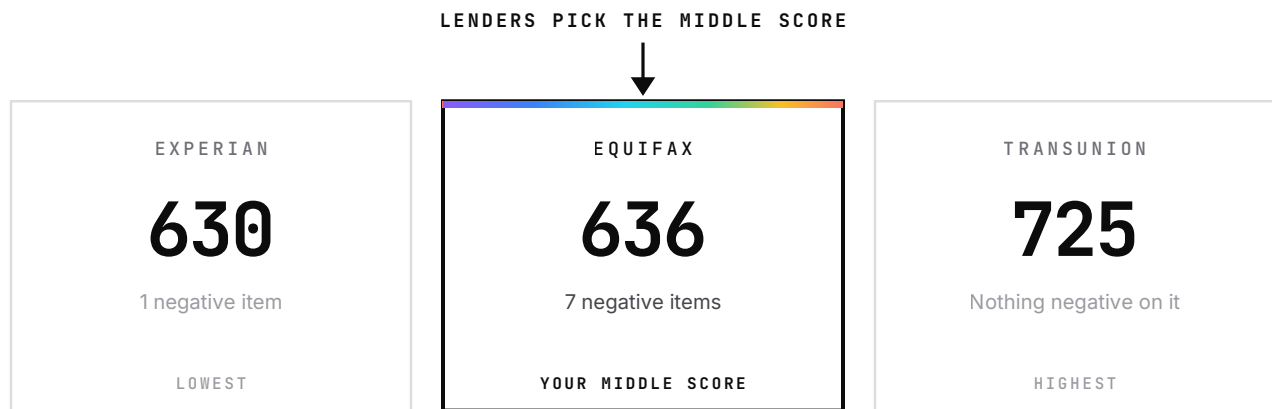

BUREAU	STATUS	NEGATIVE ITEMS	NOTES
TransUnion	CLEAN	0	No derogatory items. Ready for funding now.
Experian	DIRTY	1	Charge-off from SIGNET BANK/VIRGINIA. This is the primary bureau. Priority target for repair.
Equifax	DIRTY	7	Most damaged bureau. Multiple child support lates, a charge-off, and a bankruptcy. Needs the most work.

Experian is the primary bureau lenders pull first. It has a charge-off sitting on it right now. That is job one for repair.

02 / SCORES

Score Breakdown by Bureau

You do not have one credit score. You have three.

Line them up from lowest to highest. Lenders use the middle one. Yours is 636.

They do not match because not every company reports to all three bureaus.

Your best and worst are 95 points apart. Closing that gap is the job.

scores from your tri-merge report • details in the cards below

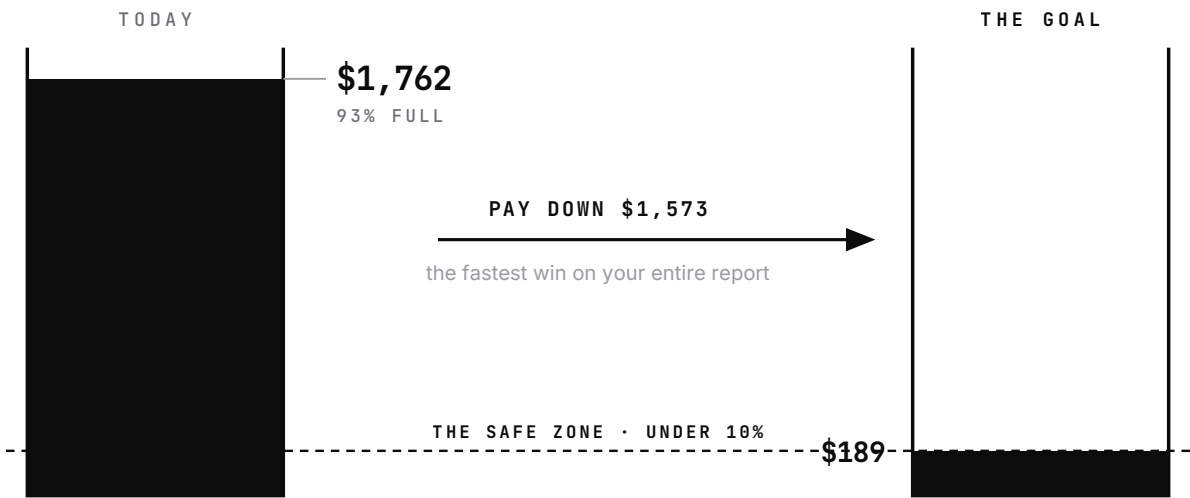

TRANSUNION 725 STRONG Your cleanest bureau. This score would qualify you for solid funding if Experian and Equifax matched it.	EQUIFAX 636 FAIR - NEEDS REPAIR Dragged down by child support lates, a charge-off, and a bankruptcy. Heavy lifting needed here.	EXPERIAN 630 LOWEST - PRIORITY TARGET Your median score anchor. The SIGNET BANK/VIRGINIA charge-off is doing real damage. Fix this first.	MEDIAN SCORE 636 FUNDABLE - BUT CAPPED You qualify for personal loan funding right now. But this score is limiting your pre-approval ceiling hard.
--	---	---	--

There is a 95-point spread between your best bureau (TransUnion 725) and your worst (Experian 630). That gap tells us exactly where the damage is. Close that gap and your funding picture changes dramatically.

Primary Revolving Cards - Utilization Analysis

CREDITOR	BUREAU	BALANCE	LIMIT	UTILIZATION	TARGET BALANCE	STATUS
SYNCB/LEVITZ	Experian	\$1,762	\$1,894	93%	\$189 or less	CRITICAL
CITIBANK SD NA	Equifax	\$429	\$624	69%	\$62 or less	HIGH
BENEFICIAL	Experian	\$239	Unknown	Unknown	Keep low	MONITOR
CAPITAL ONE	Experian	\$124	\$558 (high bal)	Closed	N/A - Closed	CLOSED
DISCOVERCARD (x2)	TransUnion	\$0	Unknown	0%	Perfect	CLEAN
SYNCB/LEVITZ (old)	Experian	\$0	\$1,230 (high bal)	Paid/Closed	N/A	CLEAN

Your SYNCB/LEVITZ card holds \$1,894. Right now it is 93% full.

A nearly full card tells every lender 'I am maxed out.'
Get it under the dotted line and your score jumps. Your pre-approval jumps with it.

your numbers from the table above • syncb/levitz on experian

dashed line marks the 10% utilization threshold lenders look for

Jordan, here is the ugly truth about your utilization. Right now you are using 97% of your available revolving credit. That is \$2,430 in balances against \$2,518 in limits. Lenders look at that number and pump the brakes immediately. The SYNCB/LEVITZ card is the biggest offender - \$1,762 on a \$1,894 limit. That single card is sitting at 93% and it is screaming 'I am maxed out' to every lender that pulls your file. You need to get that card from \$1,762 down to \$189 or less. Then get your CITIBANK SD NA card from \$429 down to \$62 or less. Do both of those things and your score jumps. Your pre-approval ceiling jumps with it. This is the fastest win on your entire report.

TARGET: Get total revolving balances from \$2,430 down to under \$252. That moves you from 97% utilization to under 10%. That one move alone can add 40-80 points to your score.

04 / AU ACCOUNTS

Authorized User (AU) Accounts

CREDITOR	BUREAU	LIMIT	BALANCE	UTILIZATION	AGE	IMPACT
CITI	TransUnion	\$8,400	\$608	7%	~66 months	NEUTRAL Cannot help funding, not hurting score

You have one authorized user account - the CITI card on TransUnion. Here is the straight truth about AU accounts. They cannot help you get funded. Lenders do not count AU accounts when making funding decisions. But this one is not hurting you either. The balance is low at 7% utilization and it has a clean payment history. Leave it alone. Do not remove yourself from it. It is neutral - and neutral is fine when everything else needs attention.

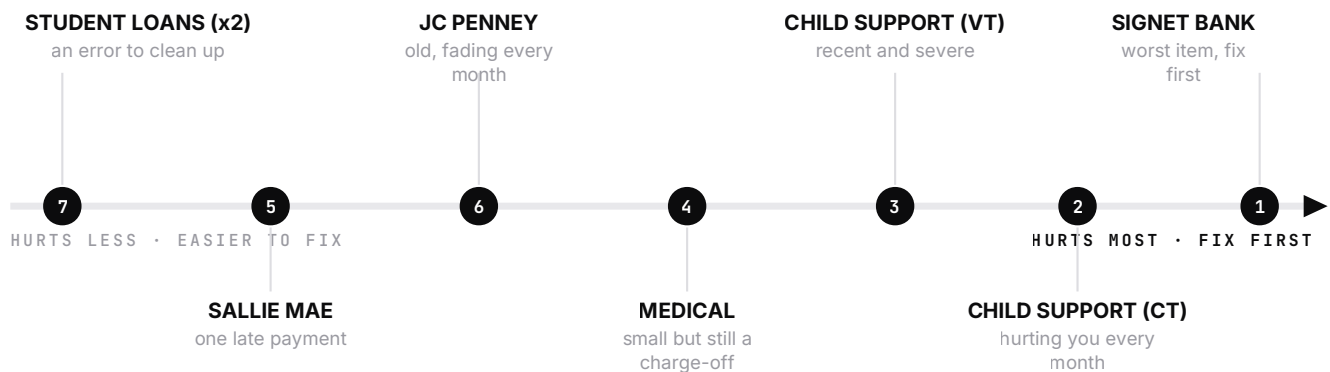

05 / NEGATIVES

Negative Items - One by One

#	CREDITOR	BUREAU	TYPE	BALANCE	WHY IT MATTERS
1	SIGNET BANK/ VIRGINIA	Experian	Charge-Off	\$4,798	Worst item on your PRIMARY bureau. Must be addressed first.
2	CONNECTICUT CHILD SU	Equifax	60-Day Lates (28x)	\$17,148 past due	28 late payments. Actively reporting. Severe ongoing damage.
3	VERMONT OFFICE OF CH	Equifax	120+ Day Lates (4x)	\$521 balance	120-day lates are near charge-off territory. Recent and damaging.
4	Unknown Creditor	Equifax	Charge-Off (Medical)	\$194	Small balance but still a charge-off. Easy target for removal.
5	SALLIE MAE STUDENT L	Equifax	90-Day Late (1x)	\$1,853 balance	One 90-day late. Disputable.
6	JC PENNEY	Equifax	Bankruptcy Discharged	N/A - Closed	Linked to prior bankruptcy. Shows 14 lates including 12 at 90+ days.
7	STUDENT LOAN MARKETI (x2)	Equifax	Transferred / Derogatory Flag	\$0	Transferred accounts flagged as derogatory. Should be cleaned up.

Let me walk you through each one of these because they are not all equal - and how you handle each one is different.

Your 7 negative items are not equally bad.

Start on the right. The SIGNET BANK charge-off sits on the file most lenders read first.

The two on the far left are paperwork errors. Letters get them removed.

dot numbers match the table above · order follows this report

ITEM 1 - SIGNET BANK/VIRGINIA - Charge-Off - \$4,798 - Experian

This is your most urgent item. It is sitting on Experian, your primary bureau. A charge-off means the lender gave up trying to collect and wrote off the debt as a loss. That looks terrible to new lenders. We start by disputing it with Experian using your dispute letters. If it comes back verified, then you negotiate. Offer SIGNET BANK/VIRGINIA 40-60 cents on the dollar - somewhere between \$1,919 and \$2,879 - but only in exchange for a written pay-for-delete agreement. Do not pay a single dollar without that agreement in writing first. Payment without deletion does nothing for your score.

ITEM 2 - CONNECTICUT CHILD SU - 28 Late Payments (60-Day) - \$17,148 Past Due - Equifax

This is your most active wound. Twenty-eight 60-day late payments reported on Equifax, with the most recent in December 2025. This is a child support obligation. These are hard to remove because they are government-backed. But you have options. First, if you can get current and stay current, the lates stop adding up. Then you dispute the older ones. Goodwill letters are your next tool. The key is stopping the bleeding first - get current on this account immediately.

ITEM 3 - VERMONT OFFICE OF CH - 120+ Day Lates (4x) - \$521 Balance - Equifax

Four 120-day lates on another child support obligation. The most recent was October 2025. At 120 days, this is one step away from charge-off status. The \$521 balance is small. If you can pay this current and get a goodwill letter sent, there is a real chance of getting those lates removed. Dispute first, goodwill letter second.

ITEM 4 - UNKNOWN CREDITOR (Medical) - Charge-Off - \$194 - Equifax

This is a medical charge-off for \$194. The creditor name is listed as unknown on the report. Medical debts under \$500 have been removed from scoring models in recent updates - but this is still showing as a charge-off which is a different animal. Dispute this one aggressively. Medical charge-offs with unknown creditors are among the easiest to get removed because the creditor often cannot verify it.

ITEM 5 - SALLIE MAE STUDENT L - 1 Late Payment (90-Day) - \$1,853 Balance - Equifax

One 90-day late on a student loan. This is a single incident. Send a goodwill letter to Sallie Mae explaining the circumstances. Student loan servicers respond to goodwill requests more often than you think - especially for a single late. If they say no, dispute it with Equifax directly.

ITEM 6 - JC PENNEY - Bankruptcy Discharged - Equifax

This account was included in a prior bankruptcy and closed in September 2019. It shows 14 late payments including 12 at the 90-day level. The bankruptcy discharge was about 53 months ago. The further you get from that date, the less it hurts. Make sure all accounts tied to the bankruptcy show zero balance and correct status. If JC PENNEY still shows any active balance, dispute it immediately. Bankruptcy accounts that report incorrectly after discharge are common - and disputable.

ITEM 7 - STUDENT LOAN MARKETI (Two Accounts) - Transferred / Derogatory Flag - \$0 Balance - Equifax

These are two transferred student loan accounts showing with derogatory flags even though they have \$0 balances and were simply transferred to Sallie Mae. Transferred accounts should not carry derogatory ratings. Both of these are strong dispute candidates. The argument is simple: these accounts were transferred in good standing. The derogatory flag is an error.

Inquiries - Cleanup Only. Zero Impact on Funding.

IMPORTANT: Inquiries do NOT affect your ability to get funded through FundHub. We do not use inquiry count as a funding factor. This section is cleanup only - removing them keeps your report tidy and professional for lenders.

BUREAU	TOTAL INQUIRIES	PRIORITY FOR REMOVAL	NOTES
Experian	23	HIGH Primary Bureau	Includes duplicates from RESIDENTCHECK (3x), GECS (3x), WASHINGTON MUTUAL FI (2x). Strong removal candidates.
Equifax	23	MEDIUM	Cluster of auto inquiries on May 28, 2024 from 9 different lenders. Same-day multiples are highly disputable.
TransUnion	0	CLEAN	No inquiries to address.

Jordan, you have 46 total hard inquiries across Experian and Equifax. That is a lot of shopping activity. The good news is this does not touch your funding eligibility with us. But we still want to clean them up. Experian is first priority because it is your primary bureau. Look at the same-day duplicates - on August 18 you have inquiries from CBC/MINI OF MT LAUREL and TRAVELERS/AFFINITY on the same day. On May 28 you have nine different auto lenders pulling your Equifax on the same day. Those clusters are easy to dispute because

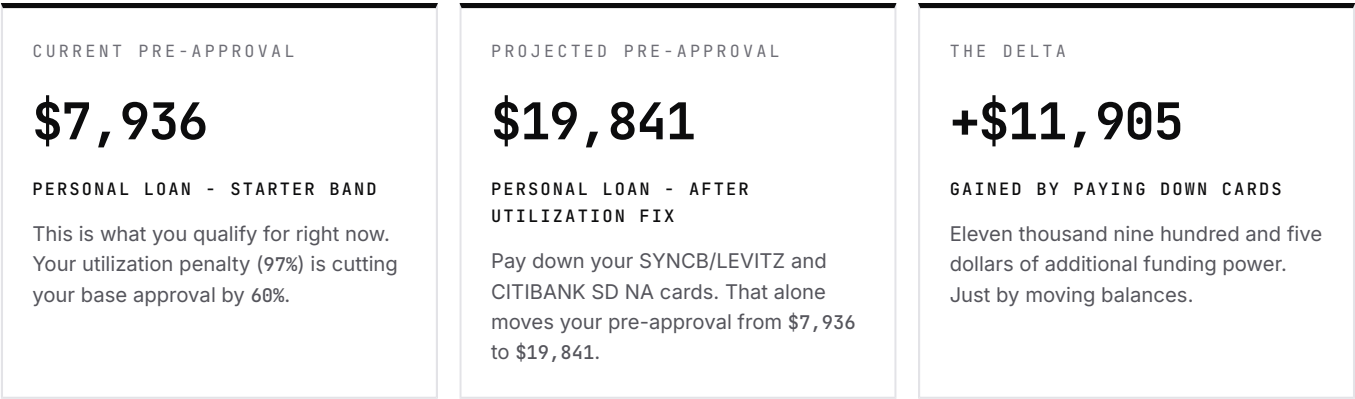

the creditors often cannot individually verify each pull. Your inquiry removal letters target these first. Do not apply for any new credit until your funding is secured.

Personal Data Cleanup

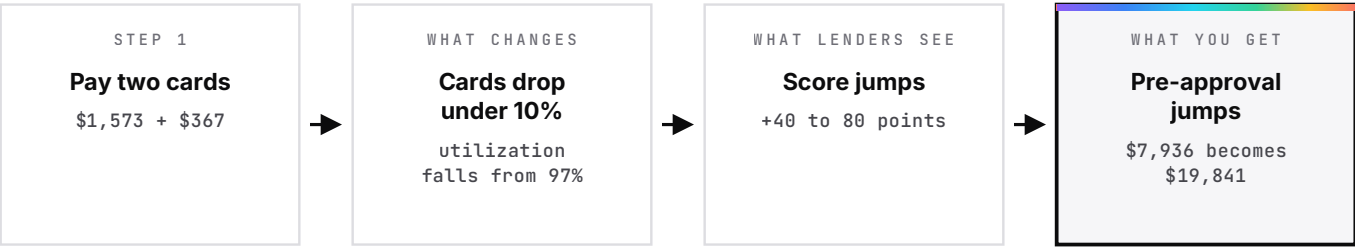

ITEM	ISSUE	ACTION REQUIRED	PRIORITY
Name Variations	2 different names on file: WILLIE L BOOZE (Experian) and BARBARA M DOTY (TransUnion)	This is a serious mismatch. These appear to be two different people's names on one file. Dispute immediately to consolidate to your single legal name.	HIGH
SSN Variations	Two different SSNs on file: one on Equifax, one on TransUnion	Different SSNs on different bureaus is a major red flag. This must be corrected before funding. Send ID verification to each bureau.	HIGH
Multiple Addresses	5 addresses across bureaus: San Antonio TX (2), Robstown TX, Wahiawa HI, Denton TX	Consolidate to your single current address at 5815 Knoll Krest St, San Antonio TX 78242.	MEDIUM
Employer Variations	5 different employers listed including SPL, ABC, DATAWORKS, HAEMONETICS, HARMONETICS	Outdated and inconsistent employment data. Clean up to current employer only.	MEDIUM
DOB	Only one DOB on file (Equifax). Missing from Experian and TransUnion.	Add consistent DOB across all three bureaus via ID verification letters.	MEDIUM

URGENT - Two different names and two different SSNs on your file. This is the most important personal data issue. It can cause application denials, fraud flags, and bureau merge errors. Your personal info dispute letters address this directly. Do this before anything else on the personal data side.

The Bottom Line - Where You Are vs. Where You Are Going

How \$1,940 of paydown becomes \$11,905 more funding.

You are not paying to make the debt disappear. You are paying to change what lenders see.

every figure comes from sections 03 and 08 of this report

STAGE	ACTION	SCORE IMPACT	FUNDING IMPACT
Right Now	Apply for personal loan funding	None needed	\$7,936 available today
Step 1 - Fast Win	Pay SYNCB/LEVITZ from \$1,762 to \$189 or less	+20 to +40 pts on Experian	Pre-approval jumps to ~\$19,841
Step 1 - Fast Win	Pay CITIBANK SD NA from \$429 to \$62 or less	+10 to +20 pts on Equifax	Stacks with above
Step 2 - Repair	Dispute SIGNET BANK/VIRGINIA charge-off on Experian	+30 to +60 pts if removed	Opens premium funding tiers
Step 2 - Repair	Get current on CONNECTICUT CHILD SU	Stops active bleeding	Critical for Equifax score recovery
Step 2 - Repair	Dispute STUDENT LOAN MARKETI derogatory flags on Equifax	+10 to +20 pts if removed	Cleans Equifax profile
Step 3 - Polish	Clean up name and SSN mismatches across bureaus	Prevents denial flags	Removes application friction

STAGE	ACTION	SCORE IMPACT	FUNDING IMPACT
Step 3 - Polish	Dispute inquiry clusters on Experian and Equifax	Minor score boost	Cleaner profile for lenders
After Funding	Form LLC and build business credit profile	N/A personal	Unlocks \$10K-\$250K+ business funding

After full repair - with the charge-offs removed, the lates addressed, and utilization under 10% - your Experian score moves from 630 toward 700+. At that level, you unlock Chase Ink Preferred, Amex Blue Business Plus, Capital One Spark Cash, SBA 7(a) loans, and personal loans up to \$40,000+. The gap between where you are and where you could be is not years of waiting. It is targeted action on a short list of items. That is exactly what FundHub is built for.

Jordan, you have the foundation. You have a mortgage. You have paid installment loans. You have a clean TransUnion. What you have is a repair problem - not a starting-from-zero problem. The path from \$7,936 to \$19,841 is just two card paydowns. The path from there to \$50,000+ in personal and business funding combined is a disciplined 90-day repair plan. We have the dispute letters ready. We have the lender matches mapped. We have the roadmap built. Now it is time to execute. Check out Fundhub Academy to go deeper on each of these strategies - and book your strategy call to lock in your funding before anything changes on your file.
