02 / MONTH 1

Month 1 - Launch

"We fire on all cylinders. Everything starts now."

This is the most important month. We are not waiting. We are not warming up. We are doing everything at once.

Step 1: The Paydown Plan

This is your single biggest score lever. Your credit cards are maxed. Lenders see 97% utilization and they run. We need to fix this fast.

Here is your exact paydown target:

SYNCB/LEVITZ (Open Card)

- Current balance: \$1,762
- Credit limit: \$1,894
- Current utilization: 93%
- Pay down to: \$189
- Amount to pay: \$1,573
- Why it matters: This is your only open revolving account with a known limit. Getting this under 10% will move your score more than almost anything else you can do.

CITIBANK SD NA (Equifax only)

- Current balance: \$429
- Credit limit: \$624
- Current utilization: 69%
- Pay down to: \$62
- Amount to pay: \$367
- Why it matters: This card is dragging your Equifax score down. Getting it under 10% cleans up that bureau fast.

BENEFICIAL (Open - no limit reported)

- Current balance: \$239
- No limit is on file, so we cannot calculate utilization.
- Goal: Pay this to \$0 if possible.
- Amount to pay: \$239
- Why it matters: When no limit is reported, bureaus sometimes calculate utilization at 100%. Paying it to zero removes that problem completely.

Total paydown to reach 10% utilization: \$2,179

Pro tip from your FundHub team:

You do not have to do this all at once. Even getting SYNCB/LEVITZ from \$1,762 to \$189 alone will move your scores significantly. Start there first.

Step 2: Round 1 Dispute Letters - Experian First

Experian is our primary bureau. We attack it first.

Target on Experian:

- SIGNET BANK/VIRGINIA - \$4,798 charge-off. This is the biggest negative item on Experian. Your Round 1 letter disputes this item directly. We challenge the accuracy of the balance, the date, and the reporting. Many charge-offs this old get deleted on the first round.

Also send Round 1 letters for personal info cleanup on Experian:

- You have 5 addresses on file. We consolidate to 5815 Knoll Krest St, San Antonio, TX 78242.
- You have 2 different names across bureaus. We consolidate to your legal name.
- Clean personal info makes the rest of the disputes more effective.

Step 3: Round 1 Dispute Letters - Equifax

Equifax has 7 negative items. We tackle them one by one.

Round 1 Equifax targets:

- Unknown creditor (Medical charge-off, \$194) - We dispute this. It is a medical charge-off with no creditor name. That alone is grounds for removal. This one should delete quickly.
- JC PENNEY - Included in bankruptcy, closed 2019. We dispute the accuracy of the late payment history. Bankruptcies age off. The individual lates tied to it should too.
- STUDENT LOAN MARKETI (both accounts) - These show as "transferred" and "TooNew" - both are flagged as derogatory. We dispute the derogatory designation since these are simply transferred accounts.
- CONNECTICUT CHILD SU - 28 late payments, \$17,148 past due. This one is serious. We dispute the payment history accuracy on Round 1. This is also a candidate for a goodwill letter if you have made any payments since.
- VERMONT OFFICE OF CH - 4 late payments at 120+ days, \$521 balance. We dispute the late payment accuracy. This account has gaps in reporting that work in your favor.

Step 4: Inquiry Removal Letters - Experian

Remember: inquiries do NOT affect your funding. But clean is clean. We remove what we can.

Best candidates for removal from Experian:

- RESIDENTCHECK/IMT RESI - appeared 4 times (May 2024, Sep 2024 ×2, May 2025). Duplicates are easy wins.
- GECS - appeared 3 times (Apr 2024, Sep 2024, Jan 2025). Same deal.
- Any inquiry that did not result in an open account is fair game.

We send inquiry removal letters for all inquiries that have no matching open account.

Step 5: Form Your LLC

You do not have a registered business entity. That locks you out of business funding entirely.

- File your LLC in Texas - you can do it online at the Texas Secretary of State website for \$300.
- Use your address at 5815 Knoll Krest St, San Antonio, TX 78242.

- Once it is filed, the clock starts ticking. LLC age matters for lenders.
- After filing, open a dedicated business checking account. Even \$100 in it is fine to start.

The Fundhub Academy has a full walkthrough on setting up your LLC the right way - the legal structure, EIN, DUNS number, and business credit profile setup. Check out the Business Foundation Module in Fundhub Academy before you file.

Step 6: Secure Your Personal Loan NOW

Jordan, you qualify for a personal loan right now. Today. Before any repairs are done.

- Current pre-approval estimate: \$7,936
- This is real money on the table.
- Do NOT open any new credit cards or accounts before you lock this in.
- Every new account you open lowers your average account age and triggers hard inquiries. Both hurt your approval.
- Get the funding first. Build the credit profile after.

Talk to your FundHub advisor about locking in your personal loan offer before the end of Month 1.

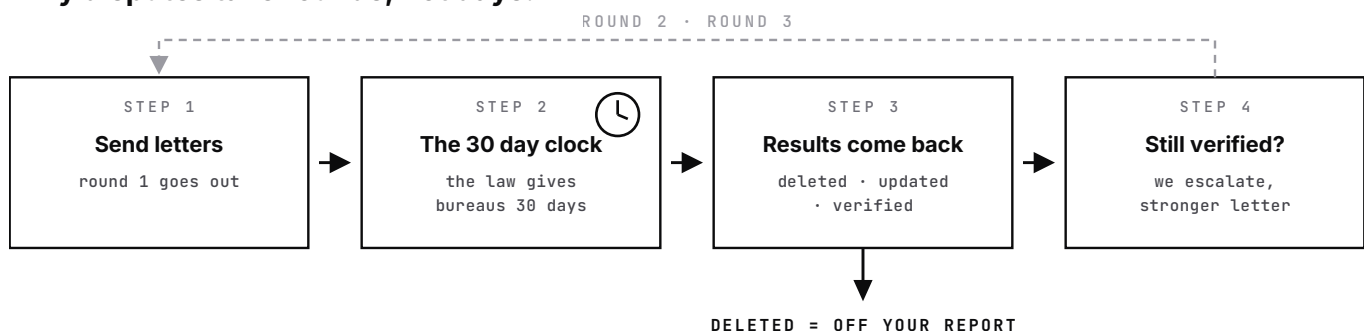

03 / MONTHS 2-3

Months 2-3 - Results

"The work starts paying off. Numbers move."

This is where you start seeing it happen in real time.

Why disputes take rounds, not days.

One round rarely clears everything. Three rounds is normal.

The 30 day clock is set by law. That is why this takes months, not days.

the process behind every dispute round in this plan

What to Expect in Month 2

Utilization paydowns will hit your score first. Credit card balance updates report within 30-45 days of payment. If you paid down SYNCB/LEVITZ and CITIBANK SD NA in Month 1, you will likely see a score jump in Month 2.

Estimated score movement from utilization alone: +25 to +45 points

Dispute results start coming back. Bureaus have 30 days to respond to disputes. By Day 30-45, you will start seeing:

- Items marked "deleted"
- Items marked "verified" (we escalate those)
- Items updated with corrected information

Best case deletions in Round 1:

- The unknown medical charge-off (\$194) on Equifax - no creditor name, high deletion probability
- STUDENT LOAN MARKETI entries - transferred accounts with derogatory flags
- Old Experian personal info errors

Month 2 Action Items

- Check dispute responses - log into annualcreditreport.com or check your bureau portals
- Document every result - deleted, verified, or updated
- Keep paying SYNCB/LEVITZ minimum - do not let the balance creep back up
- Keep paying on your Rockland Trust auto loan and SERVICE & PROF mortgage on time - perfect payment history going forward is non-negotiable

What to Expect in Month 3

Round 2 Escalation Letters go out now.

Any item that came back "verified" in Round 1 gets a Round 2 letter. Round 2 is more aggressive. We:

- Request the method of verification (the bureau must tell you exactly how they verified it)
- Cite specific FCRA violations if the process was improper
- Escalate the SIGNET BANK/VIRGINIA charge-off if it survived Round 1

Round 2 Equifax targets (if not deleted in Round 1):

- CONNECTICUT CHILD SU - Request method of verification. 28 late payments on a child support account is unusual reporting. Challenge the accuracy of each individual late date.
- JC PENNEY bankruptcy account - Escalate with documentation that this was included in discharge.
- VERMONT OFFICE OF CH - Send goodwill letter alongside Round 2 dispute.

Round 2 Experian target:

- SIGNET BANK/VIRGINIA - If still showing, we request method of verification and escalate. We also start preparing a pay-for-delete offer as a backup strategy.

Month 3 Score Projection

If utilization is down and 2-3 Equifax items delete:

- Experian: 650-665
- Equifax: 655-670
- TransUnion: 725 (holding steady)

Pre-approval estimate climbs toward \$12,000-\$15,000 range.

04 / MONTH 4

Month 4 - Final Push

"We go after what's left. No item gets a free pass."

Round 3 Dispute Letters

Any item still standing after Round 2 gets Round 3. This is where we get creative.

Round 3 strategies include:

- CFPB complaints filed alongside disputes (bureaus respond faster when regulators are watching)
- Direct creditor disputes - we dispute with the original creditor, not just the bureau
- Procedural challenges - if a bureau took longer than 30 days to respond at any point, that is a violation

Settlement Negotiation - SIGNET BANK/VIRGINIA

If the SIGNET BANK/VIRGINIA charge-off (\$4,798) survives three rounds of disputes, it is time to negotiate.

Here is your settlement script:

"I am calling to discuss account ending in [last 4 digits]. I am prepared to settle this account. However, I can only do so if you agree in writing to delete this account from all three credit bureaus upon payment. I am not able to make a payment without that agreement in writing first."

Your offer range: \$1,919 to \$2,879 (40%-60% of the \$4,798 balance)

IMPORTANT RULES for this negotiation:

- Do NOT pay without a written pay-for-delete agreement first
- Get the agreement via email or certified mail
- Do NOT give them your bank account number over the phone - use a money order or prepaid card
- Once they confirm deletion in writing, pay and keep the receipt forever

The Fundhub Academy Negotiation & Settlement Module walks you through this call word for word. Study it before you pick up the phone.

Child Support Accounts - Strategic Note

CONNECTICUT CHILD SU (\$17,148, 28 lates) and VERMONT OFFICE OF CH (\$521, 4 lates at 120+ days) are government child support accounts.

These are harder to delete than regular creditor accounts. Governments rarely do pay-for-delete. But here is what works:

- Get current on both accounts - even a partial payment plan stops new lates from being added
- Request a payment plan in writing and get it confirmed as "current" status
- Dispute the individual late payment dates for accuracy - the number of lates on CONNECTICUT CHILD SU (28 lates, nearly every month) suggests possible reporting errors

Every late payment that gets removed is points back in your pocket.

05 / MONTH 5

Month 5 - Business Milestone

"Your LLC is growing up. The business clock is ticking."

If you filed your LLC in Month 1, it is now 4-5 months old.

Here is what to do this month:

Business Credit Profile Setup

- Get your EIN (Employer Identification Number) from the IRS - free at IRS.gov
- Register with Dun & Bradstreet - get your DUNS number for free
- Open a dedicated business checking account - use your LLC name
- Apply for a D-U-N-S number and start building your Paydex score
- Get net-30 vendor accounts - companies like Uline, Quill, and Grainger report to business bureaus. Buy something small. Pay in 30 days. Repeat.

Why This Month Matters for Lenders

Most business lenders require 6-12 months of business age as a minimum. The sooner you file, the sooner that clock starts. By Month 5 you are halfway to the 12-month threshold that unlocks lenders like:

- Capital One Spark Cash - \$5K-\$20K, needs 6 months TIB (you'll be close)
- Kabbage (Amex) - \$2K-\$250K, needs 12 months TIB (2 months away)
- OnDeck - \$5K-\$250K, needs 12 months TIB (2 months away)

Personal Score Check

Pull your scores this month. Compare to Month 1.

You should be seeing:

- Experian: 665-680 (charge-off removed or negotiated)
- Equifax: 660-680 (multiple items deleted)
- TransUnion: 725+ (already clean, holding strong)

If your Experian is crossing 680, you are now in range for:

- Marcus by Goldman Sachs (\$3.5K-\$40K)
- Navy Federal if eligible (\$5K-\$15K)

Check the Score Milestone Tracker in Fundhub Academy to see exactly which lenders unlock at each score threshold.

06 / MONTH 6

Month 6 - The Reveal
