02 / MONTH 1

Month 1 - Launch

We fire on all cylinders. Nothing waits.

Step 1: the paydown plan. This is your single biggest score lever.

ACCOUNT	BALANCE	LIMIT	PAY DOWN TO	AMOUNT TO PAY
TEST CARD	\$4,500	\$10,000	\$1,000 or less	\$3,500
AMEX PLATINUM (NPSL)	\$5,200	-	-	-

Total paydown to reach 10% utilization: \$3,500. That covers the cards that report a limit above \$0. 1 card on this file has no 10% target, so nothing for it is in this number. You do not have to do it all at once - start with the card at the highest percentage.

Step 2: no derogatory items are listed on this file, so there is nothing to dispute. Month 1 is paydown and business setup.

Step 3: form your business entity. No business entity on file. You are leaving a full suite of business funding off the table. Forming an LLC is fast and most states let you do it online.

Step 4: secure the personal funding you already qualify for. Your pre-approval today is \$50,000. Do not open any new credit before you lock it in.

03 / MONTHS 2-3

Months 2-3 - Results

This is where it starts showing up. Why disputes take rounds, not days: you send the letters, the law gives the bureaus 30 days, results come back deleted, updated or verified, and anything still verified gets a stronger Round 2 letter.

Balance paydowns hit first. Card balances report within 30 to 45 days of payment, so a Month 1 paydown usually shows in Month 2.

Month 2 to-do: check the dispute responses, write down every result, and keep the balances you paid down where you put them.

Month 3: Round 2 escalation letters go out for anything that came back verified. Round 2 asks the bureau HOW it verified the item and names the specific problem with its answer.

04 / MONTH 4

Month 4 - Final Push

Anything still standing gets Round 3, alongside a complaint to the regulator and a dispute sent straight to the original creditor rather than only to the bureau.

Never pay a collector without a written pay-for-delete agreement in hand first. Payment without deletion does nothing for your score.

05 / MONTH 5

Month 5 - Business Milestone

Get your EIN from the IRS. Register for a D-U-N-S number. Open a dedicated business checking account. Open net-30 vendor accounts that report, buy something small, and pay in 30 days.

Most business lenders want 6 to 12 months of business age. The sooner the clock starts, the sooner those lenders open.

06 / MONTH 6

Month 6 - The Reveal

Pull a fresh tri-merge report and put it side by side with Month 1. Then submit for an updated pre-approval.

What this plan is worth to you

Your 6-Month Checklist

Month 1 - Pay TEST CARD from \$4,500 down to \$1,000 or less.

Month 1 - AMEX PLATINUM (NPSL) - \$5,200 owed. No credit limit is reported for this card, so there is no 10% target to pay down to. Keep the balance moving down and we will set a target when a limit reports.

Month 1 - File your business entity and open a business checking account.

Month 1 - Apply for the personal funding this file already qualifies for.

Month 2 - Check dispute results 30 to 45 days after sending. Write down every one.

Month 3 - Send Round 2 escalation letters for anything that came back verified.

Month 4 - Round 3 letters and complaints for anything still standing.

Month 5 - EIN, D-U-N-S number, net-30 vendor accounts.

Month 6 - Fresh tri-merge report. Compare to Month 1. Submit for an updated pre-approval.

Projected pre-approval amounts are estimates from your current file. Individual results vary.
