RE: Formal Dispute — CONNECTICUT CHILD SU | Account Ending in 9297

Dear TransUnion Dispute Department,

I am writing to dispute the above-referenced account as it appears on my TransUnion credit file. My review of this tradeline has identified specific Metro 2 reporting deficiencies that make the account inaccurate and incomplete as currently reported. Under the Fair Credit Reporting Act, I am entitled to a full and reasonable reinvestigation of each deficiency identified below.

DISPUTE ITEM 1 — Stale Account Data / Field 24

This account was last updated on **December 1, 2025**, making the data **236 days old** as of this letter. Metro 2 reporting standards require information to be furnished on a current monthly cycle. Data that is more than seven months stale cannot be presumed accurate, and its continued reporting violates the furnisher's obligations under FCRA § 1681s-2(a)(2), which requires prompt correction and updating of information.

DISPUTE ITEM 2 — Missing Compliance Condition Code on a Derogatory Tradeline

The account reports a derogatory status of **60 days past due** with a past-due amount of \$17,148, but **no Compliance Condition Code is present in Field 20**. Metro 2 formatting requires this field to be populated on adverse accounts. An account that fails Metro 2 formatting requirements is not being reported with the maximum possible accuracy that FCRA § 1681e(b) demands of consumer reporting agencies.

DISPUTE ITEM 3 — Failure to Note the Consumer's Dispute

This tradeline carries no XB code or any other notation reflecting a consumer dispute, despite my prior concerns about its accuracy. FCRA § 1681s-2(a)(3) obligates furnishers to flag disputed accounts. TransUnion's parallel obligation under FCRA § 1681i(a)(2) is to forward all relevant dispute information to the furnisher within five business days of receiving this letter, including the substance of the Metro 2 deficiencies described here.

REQUESTED ACTIONS

- 1 Open a formal reinvestigation of this account under FCRA § 1681i(a)(1)(A).
- 2 Transmit this dispute, in full, to the furnisher within five business days as required by FCRA § 1681i(a)(2).
- 3 Require field-level verification of the account, specifically including Fields 20 and 24.
- 4 Note the account as disputed while the investigation is pending.

5 Delete the tradeline if full verification of every disputed field cannot be obtained.

If the furnisher cannot verify the accuracy and completeness of this account's Metro 2 data — including all required fields — I expect this item to be deleted from my TransUnion credit file promptly.

Sincerely,

Jordan Sample
