03 / APPLICATION ORDER

Application Order Warning

Applying to the wrong lender first burns a hard inquiry AND can trigger automatic declines that follow you to the next application. Follow this order exactly.

- 1

Fix utilization first
Pay Chase Sapphire Preferred down to \$1,200 or less before any application.
- 2

Lowest score floor first
Kabbage (Amex) asks for 640. That is your first target.
- 3

One at a time
Wait for the decision before you send the next one. Never shotgun applications.
- 4

Work up the list
Do not apply to the highest thresholds until your score is confirmed there.
- 5

Personal before business
Lock personal funding in first. Then form or grow the business side.
