Jordan Sample	July 25, 2026	FUNDING_PLUS_REPAIR	636

Available Right Now

Jordan, here's the honest truth.

Your Experian score sits at 630. Your median score is 636. And your utilization is at 97% - that's critical.

No lenders are matched for immediate funding right now.

But here's the good news. You are not far off. Fix the utilization on SYNCB/LEVITZ alone and your score moves fast. We are talking weeks, not years.

03 / APPLICATION ORDER

Application Order Warning

This part matters a lot. Read it carefully.

Applying to the wrong lender first can burn hard inquiries AND trigger automatic declines that follow you to the next application.

Here is the order that protects you:

The order protects your score. Follow it exactly.

- 1 **Fix utilization first**
PAY SYNCB/LEVITZ DOWN TO \$189
- 2 **Lowest score floor first**
NAVY FEDERAL AT 650 • KABBAGE AT 640
- 3 **One at a time**
WAIT FOR THE DECISION
- 4 **Work up the list**
CHASE AND AMEX ONLY AT 700+
- 5 **Personal before business**
LOCK PERSONAL • THEN FORM THE LLC

The same five applications in the wrong order get declined.

the full rules are spelled out below

- **Fix utilization first.** Pay SYNCB/LEVITZ from \$1,762 down to \$189. Do this before any application.
- **Start with the lowest score threshold.** Navy Federal at 650 is your first personal target. Kabbage at 640 is your first business target.
- **Work up the list.** Do not apply to Chase or Amex until your score is confirmed at 700+.
- **Never shotgun applications.** One at a time. Wait for a decision before the next one.
- **Personal funding before business funding.** Get personal loans locked in first. Then form your LLC and build the business side.

The wrong order costs you money and time.
